Sir:

A telephone interview was conducted on December 10, 2009 with the Examiner and Applicants' representative regarding the above-identified application.

During the interview, differences between Applicants' claim 11, Gruzdev et al. (US 6,868,179) and Curry et al. (US 2004/0051908) were discussed. Agreement was reached that Gruzdev does not teach separately applying each of a first color correction and a second color correction to a respective pixel. The Examiner further reviewed Curry et al. Agreement was reached that there is no motivation to combine Gruzdev et al. and Curry et al.

Respectfully submitted,
